

I am writing to you regarding the issue of Sinclair Broadcasting wishing to air a supposed 'pro-Bush' movie - commercial-free - right before the election. This is an unfair move that Sinclair has chosen to make - and those supporting the company - because it does not allow for a fair counter movie geared to being 'pro-Kerry.' Not only that, but letting either movie to be aired allows for our television channels and media companies to become publically partisan. These movies can always be rented if one wishes to watch it, but forcing the viewer to watch it on one of over 60 channels without commercials, with the added fact that it is a partisan movie, SHOULD NOT BE TOLERATED. I strongly encourage you to not support Sinclair's move to broadcast any partisan movie or shows, so that you can help set the morals for an exceedingly corporate-run media world, where the everyday American is often overlooked. Thank you.
